Introduction

The purpose of this document is to describe the usage of Zinema System. It describes in simple steps how to properly use the system.

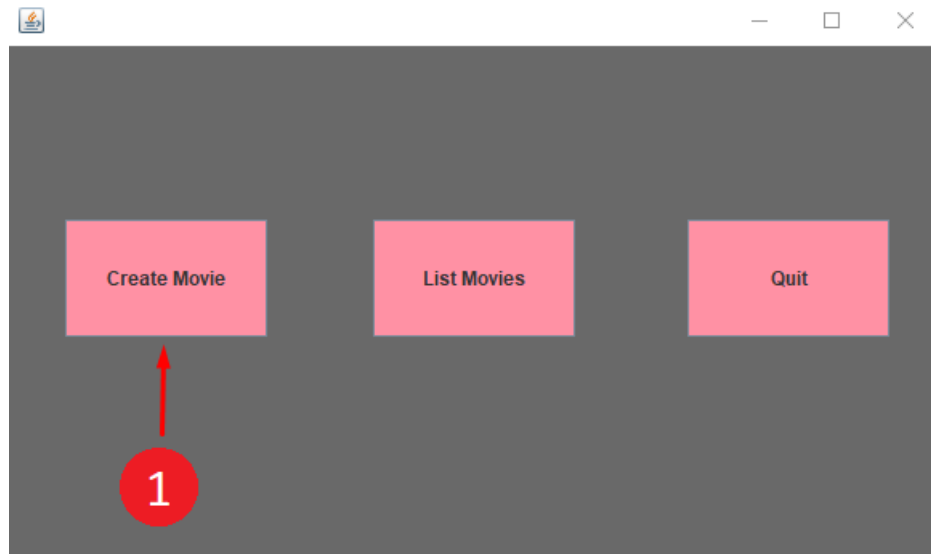

In simple steps it is described how to use the basic features of the system.

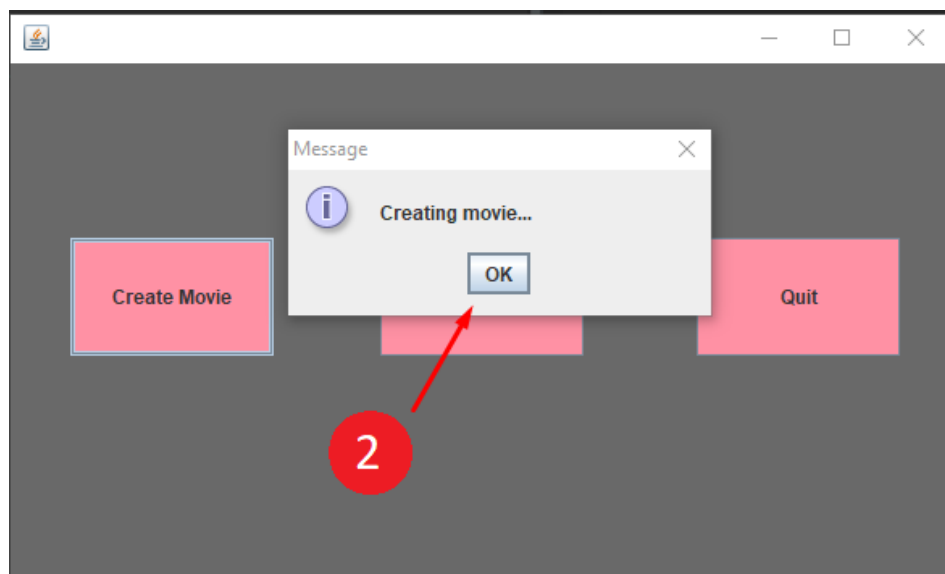

1. Movie Creator

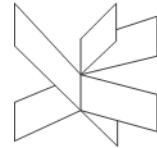

Create Movie

1. Press “Create Movie” button

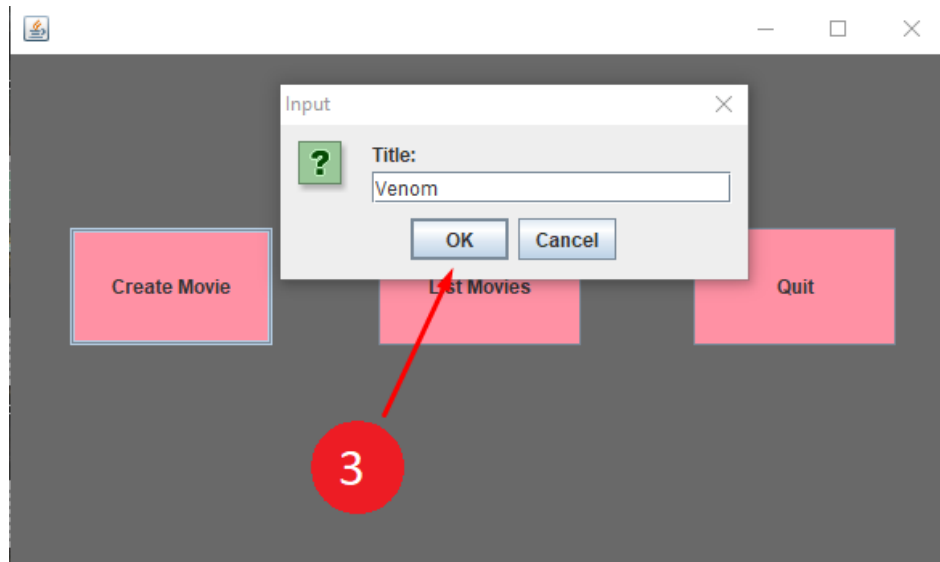

2. System will signal that you started the process of creating a movie. Press ‘OK’ button to continue

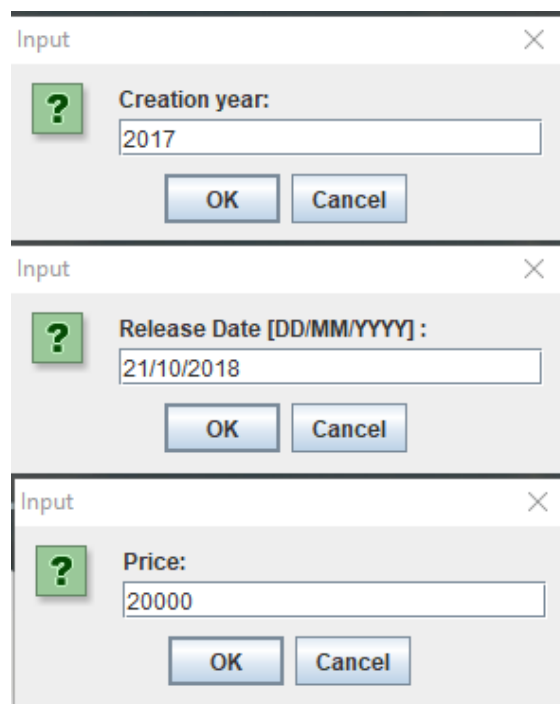

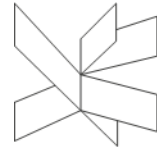

3. Start entering required data into field in pop-up window.

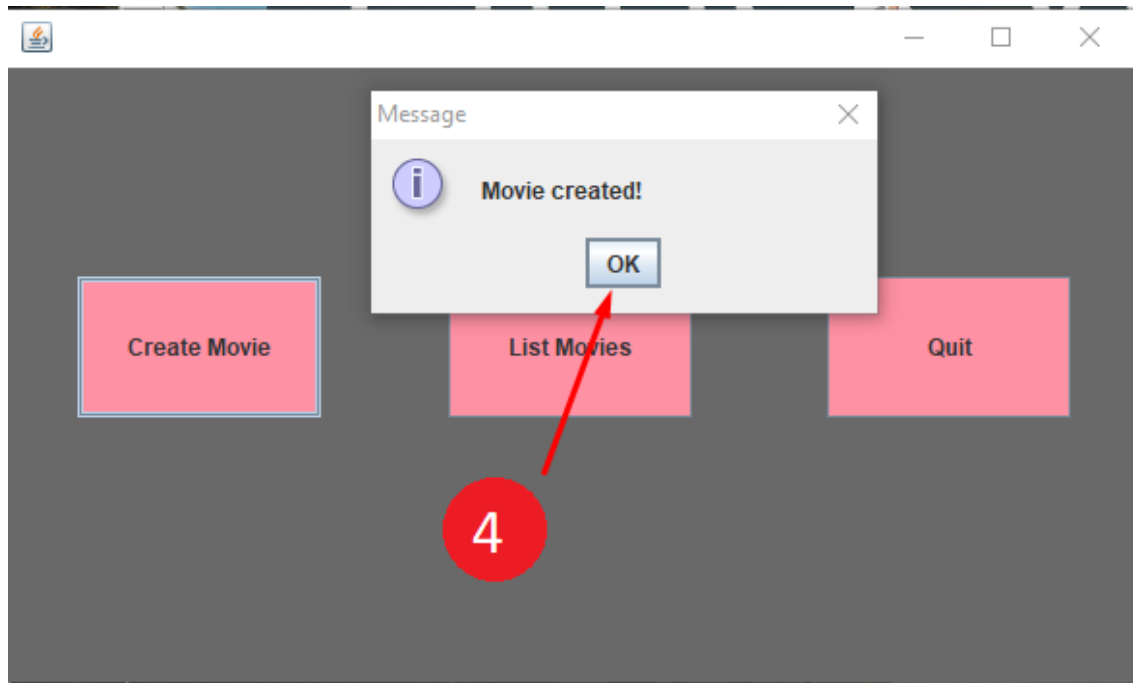

Note! Pop-up windows will appear one by one. Enter movie data asked in the particular window and press 'OK' button to validate your choice.

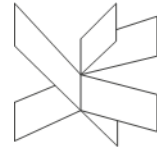

Stefan Harabagiu(266116), Nikita Roskov(266900), Dominika Kubicz(266148), Claudiu Rediu(266129), Andrei Cioanca(266105)

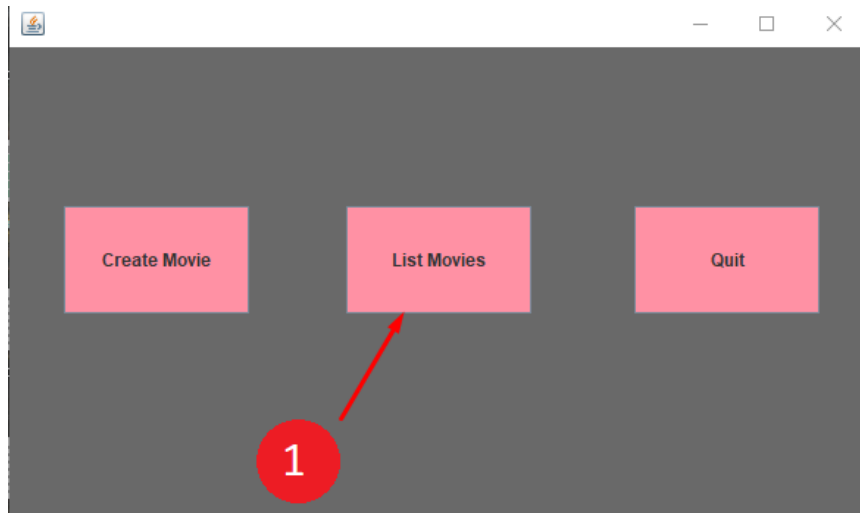

4. After you entered all required information and validated your choice, system will signal that movie has been created. Press 'OK' button.

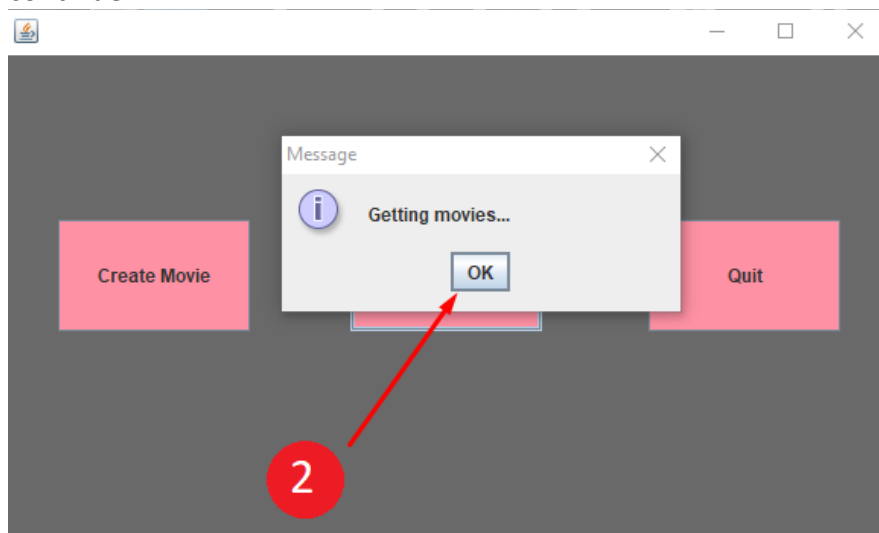

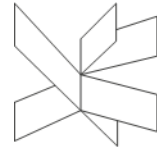

List Movies created

1. To see all movies create press 'List Movies' button

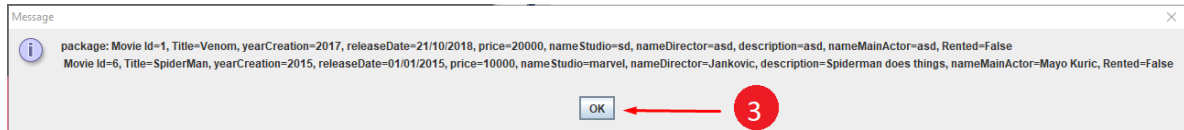

2. System will signal that you have chosen to 'list movies'. Press 'OK' button to continue

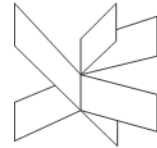

3. Then pop-up window with a list of all movies created will appear. Press 'OK' to close the window.

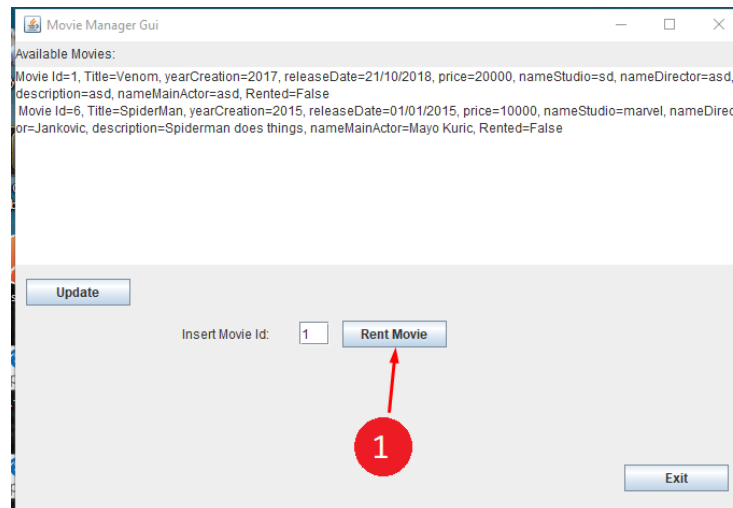

This example shows the system with 2 movies created.

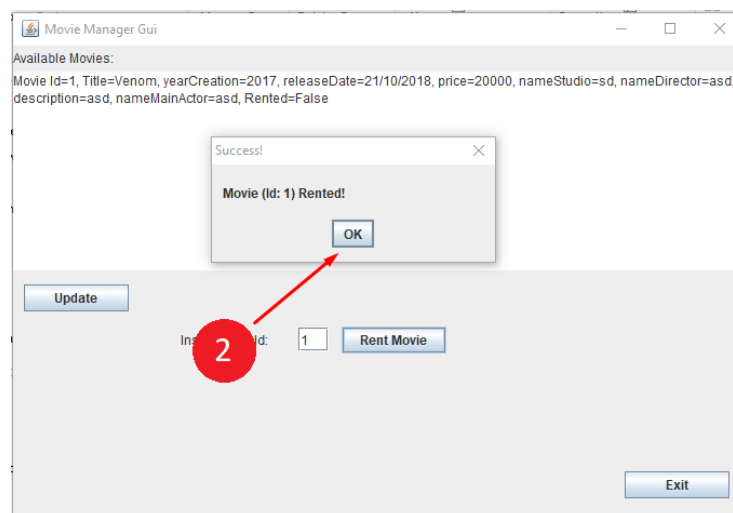

2. Movie Manager

Acquire Movie

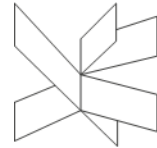

1. Choose movie from the list of created movies. Enter id number in the field under the list of movies and press 'Rent Movie' button

2. System displays the message that movie is rented. Press 'OK' button to continue

Note! Press 'Update' button to update the list of created movies.

3. Movie Scheduler

Add room:

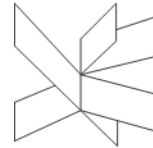

1. To create a room, enter size and description of the room
2. Press “Input” button to validate data entered.

When room is created, it will appear in the list of available rooms.

Delete room:

1. Enter ID of the room you want to delete
2. Press “Delete” button to validate your choice

Stefan Harabagiu(266116), Nikita Roskov(266900), Dominika Kubicz(266148), Claudiu Rediu(266129), Andrei Cioanca(266105)

Create Schedule:

Add movie to schedule:

1. Enter ID of the movie you want to add. Enter ID of the room where to show the movie. Choose day and time the movie to be shown.
2. Press “Input” button to validate your choice

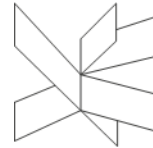

Note: Repeat this operation to add more movies to schedule.

The screenshot shows a web application window with a pink background and a blue border. The window has two tabs: 'Rooms' and 'Schedule'. The 'Schedule' tab is active. The interface is divided into several sections:

- Movie Details:** A text box containing movie information: "Movie Id=1, Title=Venom, yearCreation=2017, releaseDate=21/10/2018, price=20000, nameStudio=sd, nameDirector=asd, description=asd, nameMainActor=asd, Rented=True".
- Room Details:** A text box containing room information: "Room Id=1, Size=22, Description=asd", "Room Id=2, Size=10, Description=yoyoy", "Room Id=4, Size=55, Description=yy".
- Available days and times:** A text box listing available days: "Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, Sunday" and selected times: "Select time: 10:00, 13:00, 16:00, 20:00".
- Form:** A form with four dropdown menus: "MovieId" (value: 1), "RoomId" (value: 2), "Day" (value: Thursday), and "Time" (value: 16:00).
- Buttons:** Four buttons are located at the bottom right: "Show", "Input", "Send", and "Reset". Arrows point from the "Input" button to the "Send" button, and from the "Send" button to the "Reset" button.

Send schedule:

1. When you are done with adding movies to schedule, press “Send” button to save created schedule in the system. All scheduled movies will be shown in textttbox the bottom of page
